NEW-HOOF[™] **TOPICAL**

Ready-to-Use Triple Action Formula

for Dairy Cattle

New-Hoof Topical[™] is a convenient, ready-to-use spray designed for direct application to the hooves. Clean the hooves as thoroughly as possible and spray New-Hoof Topical to the point of saturation. Spray after each milking as needed.

FOR ROUTINE USE:

Use New-Hoof Topical as part of your routine program. Use New-Hoof Topical Ready-to-Use spray or, for larger operations, prepare mixture using 1 part New-Hoof Concentrate and 2 parts water. Clean the hooves well and spray New-Hoof thoroughly. Continue to spray after every milking as needed.

AVAILABLE SIZES:

30-200..... 1 QT (0.95 Liters)

INGREDIENTS:

(minimum unless otherwise stated)

Ionized Copper (CU), min	0.268%
Non-Ionized Surfactants, min	7.0 0%
Inert Ingredients.....	96.932%

WARNING:

For animal use only. Keep out of reach of children. Can cause eye irritation. In case of eye contact, flush for 15 minutes with cool water. If irritation persists, call your physician.

DISPOSAL:

New-Hoof is environmentally friendly. After use, New-Hoof may be disposed of in the manure lagoon without detrimental effects on the natural digestion process. As with any product, follow local guidelines for soil or foliar application.

Give Your Animals the Blue Ribbon They Deserve.
