

Merrick's BLUE RIBBON®

ENHANCED BY
ADEPPT™

TDN ROCKETS®

Contains a Source of Live (Viable)
Naturally Occurring Microorganisms

for cattle

TDN Rockets® are a stabilized source of Lactic Acid Bacteria including *Lactobacillus acidophilus*, Inulin, Yeast and select Vitamins in a fast dissolving capsule for quick absorption. Give to animals during ration change, birth, depressed appetite, weaning, shipping, weather changes and following antibiotic treatment. Probiotics (Direct Fed Microbials) have been shown to help maintain normal appetite.
