Niacin Energy Punch™

Ready-to-Use

for Cattle, Sheep & Goats

Niacin Energy Punch™ is an energy and vitamin supplement for use in fresh cows. It contains propylene glycol, niacin and select vitamins to help maintain normal energy and vitamin levels in fresh cows. Also suggested for sheep and goats.

FEEDING RECOMMENDATIONS:

CATTLE: Shake well before using. Provide 200 ml at the first sign of freshening and another 200 ml 6 to 12 hours post calving, repeat as needed. If first feeding is missed, a post-calving feeding is still beneficial. One gallon provides 19 feedings of 200 ml.

SHEEP & GOATS: Provide one ounce at the first sign of lambing/kidding and another one ounce 6 to 12 hours after birth. If the first feeding is missed, feeding following birth is still beneficial.

AVAILABLE SIZES:

20-400.....1 Gallon (3.8 Liters)
20-406.....15 Gallon Drum

GUARANTEED ANALYSIS:

(per 200 ml)

Vitamin B12 (min)..... 600 mcg
