BLUE RIBBON[®]

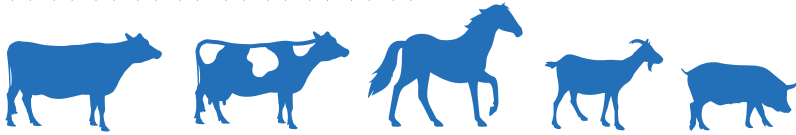

ENHANCED BY
ADEPPT[™]

REPLAMIN[®] GEL PLUS

A Nutritional Source of Amino Acid Chelated/Complexed Minerals
& Vitamins with CattleMace[®] Advantage

for beef & dairy cattle, horses, goats & pigs

Product Name[™] Use as a supplemental source of minerals and vitamins during periods of stress (such as weaning, moving and castration) during which feed intakes may be decreased and during which supplemental nutrients may be of benefit or as a source of supplemental nutrition for animals which may have mineral and/or vitamin deficiencies.

FEEDING RECOMMENDATIONS:

Cattle: Beef & Dairy (including veal calves, feeder cattle, cow-calf, and convalescent cattle and fresh cows). A single serving should be given to feedlot/stocker calves during processing. Convalescent cattle/calves should be given REPLAMIN[®] GEL PLUS as nutritional support during the recovery period as needed.

Horses: For routine weekly feeding, use up to 1/2 the recommended therapeutic serving.

Goats: 2-5 cc per head depending on weight. Repeat as needed or as directed by your vet.

Pigs: For optimum performance of show pigs - give 5 cc (not more than once per week).

Visit Merricks.com for more feeding recommendations and dosing.
